第8問題

Agree:

I agree with the statement. I have a few reasons for this opinion.

First, online classes provide a safe environment for students to study, especially during the pandemic when we must practice social distancing. Second, students can engage with teachers and other students from around the world. They are no longer restricted to guests visiting their classes physically. Third, using modern technology gives students access to creative programs and features that can improve their learning experience. Additionally, they will have quick access to the endless supply of information from the internet.

Disagree:

I disagree with the statement. I have a few reasons for this opinion.

First, online classes require students to use additional technology such as personal computers and to be able to navigate software such as Zoom or other meeting style programs. This can also be difficult for some students who have poor internet connections since most students will have no control over this. Second, it can cause a lack of interaction with classmates. It can make students feel isolated. Third, online classes also require students to have a lot of screen time. It can cause eye strain. (10 点)
