A Message From the Governor (Re: COVID-19 Response)

1. At the regular press conference on March 27th, I requested residents of Shimane Prefecture to refrain from making non-urgent trips between Shimane Prefecture and Tokyo Metropolis, which is requesting residents to refrain from non-urgent outdoor travel (including weekdays and holidays).
2. As the Governor, based on current circumstances, I also request all citizens of Shimane Prefecture to refrain from making non-urgent trips to other prefectures that have introduced self-restraint policies.
3. In addition to the requests of each prefecture, Shimane Prefecture requests citizens of other regions that have introduced self-restraint policies to refrain from outdoor travel. This request considers the goal of each prefecture's self-restraint policies—to prevent infection and further spread of COVID-19.
