

(英語)

To all citizens of Shimane Prefecture,

During the New Year's holidays, we predict that there are many family members and relatives from other prefectures who are planning to return to Shimane Prefecture.

To all such visitors—from two weeks prior to your arrival, please be careful of “5 situations” where the national government warns that there is a high risk of infection:

- (1) Social gatherings involving alcohol consumption
- (2) Dining out in large groups or for a long period of time
- (3) Not wearing a mask when talking to others
- (4) Living with others in a small space
- (5) Moving to a different location

In addition, we ask that all visitors strictly practice basic infection prevention measures such as avoiding the “Three Cs,” social distancing, wearing a mask, and disinfecting one's hands.

To all prefectural citizens—we ask that you notify family members or relatives who will be visiting Shimane Prefecture to follow the requests above.

9 December 2020

Maruyama Tatsuya  
Governor of Shimane Prefecture
